

## Cambridge Primary English Curriculum Outline

The curriculum frameworks for each subject for Cambridge Primary are organised into six stages. They reflect the teaching target for each year group and provide comprehensive learning objectives.

For Cambridge Primary English, the curriculum is presented in five content areas or 'strands'. These are further subdivided into 'substrands'. The framework promotes an enquiry-based approach to learning to develop thinking skills and encourage intellectual engagement. The five strands and substrands are:

Phonics, spelling and vocabulary

Grammar and punctuation

- Reading
- Writing

Reading

- Fiction and poetry
- Non-fiction

Writing

- Fiction
- Non-fiction
- Presentation

Speaking and listening

The curriculum aims to enable learners to communicate confidently and effectively and to develop critical skills in order to respond to a range of information, media and texts with enjoyment and understanding.

Learners who follow this framework will develop a first language competency in English based on a curriculum designed to be successful in any culture and to promote cross-cultural understanding. The Cambridge Primary English curriculum framework provides a solid foundation on which the later stages of education can be built.
